PROFILE INFO

I am a passionate software engineer with 7+ years of experience specializing in full-stack web development. I have a strong background in Python, JavaScript, HTML/CSS, and various modern frameworks such as React, Django, and Node.js. I take pride in creating clean, efficient, and scalable solutions for my clients.

EXPERIENCE

INTERNET WEB DEVELOPMENT

2014.9-2015.5

- Assisted the web development team in creating user interfaces and implementing features for various web projects.
- Conducted research and testing for new front-end technologies and contributed ideas for enhancing the overall user experience.
- Gained hands-on experience with JavaScript frameworks and CMS platforms (e.g., WordPress, Joomla).

JUNIOR WEB DEVELOPER

2015.5-2016.3

- Assisted in developing web-based applications, focusing on front-end development using HTML5, CSS3, and JavaScript.
- Participated in daily stand-up meetings and collaborated closely with senior developers to improve technical skills.
- Worked on debugging and resolving issues in code, improving website performance by identifying and fixing bottlenecks.

BOHDAN LASHKO

EXPERIENCE

FREELANCE WEB DEVELOPER

2016.4-2021.7

- Assisted in developing web-based applications, focusing on front-end development using HTML5, CSS3, and JavaScript.
- Participated in daily stand-up meetings and collaborated closely with senior developers to improve technical skills.
- Worked on debugging and resolving issues in code, improving website performance by identifying and fixing bottlenecks.

WEB DEVELOPER

2021.7-2024.6

- Developed responsive, user-friendly websites using HTML5, CSS3, JavaScript, and frameworks such as React and Vue.js.
- Integrated third-party APIs and payment gateways, ensuring smooth transaction processing for clients.
- Optimized website performance and loading times, increasing SEO rankings and improving user retention.

SENIOR WEB DEVELOPER

2024.7-present

- Led the design, development, and deployment of scalable web applications for clients across various industries, improving user engagement by up to 30%.
- Collaborated with cross-functional teams (designers, QA, project managers) to deliver high-quality projects on time.
- Spearheaded the transition from monolithic architectures to microservices for several web applications, improving system performance and maintainability.
- Implemented automated testing pipelines, reducing manual testing time by 50%.

ACHIEVEMENT

• 2017 – 2019

Reduced the production cost by 20% in the second year of internship

• 2022 – 2024

Managed five projects in our company worth over \$100million.
